For the attention of the Quality Manager

Dear Sir/Madam

Subject: Westland Helicopters Limited (WHL) Supplier Approval - Amendment

Please find enclosed an amended Approval Scope, incorporating the changes in your WHL Approval. This supersedes the previous issue which should be destroyed.

Sub-tier approval signifies that WHL have no current Purchase Orders placed on your company. You remain a fully approved supplier and can receive Purchase Orders from WHL Sub-Tier Suppliers in furtherance of WHL contracts.

If an 'HP-' specification is included in the approval, this is for the manufacture of parts for the WAH-64 UK Apache helicopter, in furtherance, either directly or indirectly, of a WHL order. Processes shall only be performed in accordance with that detailed under the DESCRIPTION column. 'HP-' specifications are the property of Boeing/McDonnell Douglas Helicopter Systems (MDHS) and authority for the approval is through procedure WHPS 655.

The changes in the scope are as follows:

- Add new approval codes: PB24, PB31, PB33, PJ31, PJ32, PJ33, PJ35

During your contract review process, please check that the required work, identified on the Purchase Order, is covered by your scope of approval, as parts manufactured outside of your scope cannot be delivered.

If any of the changes identified are erroneous, please inform your contact in WHL Procurement as a matter of urgency.

Yours faithfully
For Westland Helicopters Limited
