Supplier: M. J. Sections Ltd.
Address: Stourbridge Rd
City: Halesowen
State/Country: United Kingdom
Zip Code: B63 3UN

Attention: Mr. Stephen Rose – Quality Assurance Manager

Subject: Pratt & Whitney Source Qualification List (SQL)

Dear Mr. Rose,

Pratt & Whitney (P&W) is pleased to inform you that your company is now identified as a qualified source authorized to perform work on P&W parts and programs in accordance with the following specification(s):

- PWA 11, "Heat Treatments"
 - ✓ Suffix 34; Ni & Ni base alloys; Non-rotor parts only

This authorization now forms a part of our Source Qualification List (SQL) of approved suppliers.

Please be aware that P&W Materials Control Laboratory (MCL) Manual "F" Sections establish the controls for chemical and metallurgical processing performed by P&W qualified sources. Compliance with these controls and other applicable specifications is necessary for continued qualification. Maintaining facilities, procedures, equipment, personnel and controls to P&W standards, as determined by our periodic surveys and our routine testing of your product, is critical to your approved status, as well.

Process approval does not relieve qualified source of responsibility for conformance to all applicable drawing and purchase order requirements.

Should you have any questions or concerns, please don't hesitate to contact me or your local MCL SMC representative.

Congratulations and our expectations are for your continued success.

Sincerely,

David Soong
